### A HEAP OF MONEY.

Being spent at the Schmalbach Brewery. Improvements Projected.

A large force of men is at work on the excavations for the new buildings of the Schmalbach Brewing Company. According to a cut in the office of the brewery, the new buildings will not only tend to improve the material prosperity, but will also be an ornament to the city.

A new brewing boiler, mash and malt house will be erected, built of brick, iron and terra cotta, containing 100,000 gallons of water. The old brew house will be used for storage purposes. Four new boilers have been put in, which can be used independent or together. A new 100-horse power engine will also be added, and a new ice machine will also be put in.

The company intends to spend \$150,000 on the proposed improvements. When finished the brewery will be the finest in this part of the country, and the buildings will be an architectural ornament. Charles Kaestner & Co., of the city, are the architects, and Clark, Son & Co., of the same place, are the building contractors. The work is expected to be finished by the middle of October.

### THE PRISON NAMED.

What the Wheeling Bridge Company Will Have to Pay the Wheeling & Belmont Bridge Company for the Property Wanted.

Yesterday morning William Hare, James McAdams, B. F. Higgins, James Devine and Robert Nesbit, the commissioners appointed by the Circuit Court to take testimony and a price to be paid by the Wheeling Bridge Company to the Wheeling & Belmont Bridge Company for the piece of ground wanted by that company for the purpose of building its approaches to the island end of the new bridge, commenced their work. The day was spent taking testimony and a decision was reached at 5 o'clock.

There was a great difference of opinion among the witnesses as to the value of the land to be taken and after careful and deliberate consideration the commission decided that \$1,800 was a fair price for the land, and accordingly fixed the price at that figure.

Mr. William P. Hubbard represented the plaintiff and Henry M. Russell and A. J. Clark the defendants. The piece of ground taken is a strip of land 25 feet wide, lying along the north side of Ohio street and extending from the river to South Front street.

### BURNED PLACES.

In the Streets—Great Nuisance Being Caused by the B. & O.

A trip through the city would reveal many places where the street pavement is in bad condition. On the South Side, particularly, there are two places that should receive attention. On the south end of the new East street bridge, a big hole stands, a constant menace to vehicles. The bridge is not paved. The eighth ward road must go down LaBelle street and come up Chapline, in answering fire alarms, owing to the condition of the road at that point. LaBelle street is in a miserable condition. It has been filled in at different times, with cinders and stones, and is almost impassable.

Last winter a water main burst on Jacob street, near Twenty-eighth. There is a deep hole at this point, which is getting worse every day. This part of the street should be repaired immediately.

For some time past the B. & O. Railroad Company has been raising its track from Thirty-third to Thirty-ninth street. As the street crossing the track is from a foot to a half above the grade, the whole wagon couldn't get across the track, and the goods had to be taken out of the wagon and carried across the track. Members of Council have been notified of the nuisance that is being created, but nothing has been done, and the company goes on with the raising of the track.

### Fair Grounds Improvements.

The State Fair Association has its grounds in shape again. The fences have all been replaced, and the grounds, aside from the track, are in as good condition as before the high water. Work was commenced on the track and a driving course yesterday, and by the first of May the track will be ready for the trotters.

There have been some improvements made in the stable manure pits, and the grounds will be better than ever. The Mark Twain Club has secured the grounds for their annual picnic, which will take place on May 30.

### What It Cost Them.

O'Connor, the actor in the County Fair Company, who was robbed of his dog last Wednesday night and took him to Youngstown with him, knows just how much it costs to steal a dog from Wheeling. Yesterday the authorities of Youngstown sent the dog and a postal money order for \$18 to pay the expenses entailed in capturing the actor and the dog, to Chief of Police Delbridge.

Minor expenses, and by the first of May the track will be ready for the trotters.

There have been some improvements made in the stable manure pits, and the grounds will be better than ever. The Mark Twain Club has secured the grounds for their annual picnic, which will take place on May 30.

### Inquired About the Stock.

There have been quite a number of inquiries from capitalists about the preferred stock which the Wheeling & Elm Grove Railway Company decided to issue last week at the rate of \$100,000. This stock is all issued under a guarantee of five per cent dividends annually, and will be a good and safe investment for anyone having a small amount of capital to put into a safe place. The road is simply able to pay the dividends promised on the \$200,000 stock to be issued.

### United States Court.

In the United States Court yesterday morning the cases of Joseph and Tony Morillo, charged with a violation of the internal revenue laws, were called. They were tried to a jury found guilty, and sentenced to pay fine of \$100 each. Court then adjourned till 10 a. m. to-day.

A special grand jury will be made up out of the petit jury for the examination of a number of causes in this court, and will commence its deliberations on Monday next.

### A TEST RUN.

Chief Healy shows the Fire Department in Good Style—The Time Made.

At seven minutes after two, yesterday afternoon, Chief Healy showed Fire Commissioner Roberts, of Connellsville, what the Wheeling department can do. At the time stated the Chief rang an alarm from box 25, at the corner of Fourteenth and Market streets. An arrangement was made to test the different companies as they arrived at the box.

The Chemical engine dashed up the corner in 1 minute and 40 seconds. The hook and ladder, a good second, in 1 minute and 40 seconds. The boys said they could have made it in less time but their new hose was somewhat skittish.

In 1 minute and 45 seconds the Atlantic was changed, with the hose wagon close behind. The Niagara hose was on hand in 3 minutes and 30 seconds with the engine about ten seconds later.

The Vigilant engine came along in 4 minutes and 10 seconds after the alarm struck. The Vigilant stated that a pile of refuse and several barrels of oil of Eighth street detained them several seconds.

The department made good time, but in some cases the record might have been lowered several seconds, but on coming close to the fire alarm box the horses had to be pulled up, owing to the crowd and the vehicles which had gathered at 12 o'clock, and the boys were much pleased with the exhibition of promptness.

### THE SAME OLD TROUBLE.

On the Electric Line—The New Engine Arrives.

The prevalence of "no power" yesterday on the electric line was most provoking. Several times, before 10 o'clock, the electric motors were stopped on account of the failure of the engine. At 10 o'clock the electric power went out and remained so until 11:30.

On Thursday the electric power took a spurt and kept at it for twenty minutes, when it stopped again. For two or three hours more the cars were stranded along the track, the crews in the meantime taking things easy, waiting for the engine to resume work. The cars finally did get going again, with occasional short interruptions.

### In Clerk Hook's Office.

The following business was transacted in the office of the County Clerk yesterday:

A deed made by Anderson Smith to C. E. Schenck, on April 16, 1891, in the county of Kanawha, was recorded.

A charter was issued to the Deutscher Krieger Verein, a benevolent society, with the power to own real property to the value of \$10,000 and personal property worth \$5,000. The incorporators are Louis P. Satterberg, Henry Ben, Charles Otto, George Miller, Frederick Krieger and George W. Schenck.

A power of attorney from the National Provident Association to J. B. Sommer, and a similar authority from the California Mining Company to S. G. Brown, were recorded.

Henry Sils was appointed administrator of the estate of Katherine Berger, bond, \$50, Frank Friederich, surety.

### Committed to Weston.

Squire Davis yesterday committed two persons to jail as lunatics. John Peiper is suffering from a species of melancholia superinduced by worry over financial troubles, and it was thought best to send him to the asylum for treatment.

Louis Botia, a Russian, was also committed. He met with an accident at the tunnel several months ago, in which his legs were crushed. He was taken to the hospital, and Dr. C. M. Frissel, the company's physician, attended him. Botia conceived a violent dislike toward the doctor, and since his discharge from the hospital, has been threatening to kill him. The man is evidently crazy, and will be sent to the asylum.

### NOTES ON NAVIGATION.

#### Stage of Water and Movements of Boats.

The river was falling last night, with 11 feet 4 inches in the channel. The reports from above were:

Warren—3 feet 5 inches and stationary; weather clear and warm.

Morgantown—5 feet 6 inches and stationary; weather clear and warm.

At 6 a. m. yesterday the boats passed on from Cincinnati to Pittsburgh. The Ben Hur left for Pittsburgh at noon. The Hatcher passed down for Cincinnati at noon.

To-day's schedule is as follows:—The H. K. Bedford will go to Pittsburgh, and the Scotia will pass down for Cincinnati at noon.

Sunday's boats will leave as follows:—The Ben Hur, Keystone State and Louisa will pass up for Pittsburgh at noon. The Scotia will pass down for Cincinnati at the same hour. The Courier is due to leave for Pittsburgh at noon.

### Syrup of Figs.

Produced from the laxative and nutritious juice of California figs, combined with the medicinal virtues of plants known to be most beneficial to the human system, acts gently, on the kidneys, liver and bowels, effectually cleansing the system, dispelling colds and headaches, and curing habitual constipation.

### Don't Neglect a Cold.

"Perhaps the best advice that can be given for the common cold is, 'Don't neglect a cold.' In its symptoms, at least, the influenza is an aggravated cold, and the only danger attached to it is that by its weakening effect on the system it may invite other and more dire diseases. So in the first place, avoid catching cold, but if you do catch one, then stay at home and take care of it." To the above we would add, "until entirely well," and the greatest danger is just when recovering from the cold, and if Chamberlain's Cough Remedy is taken as directed for a severe cold you will not find it necessary to remain at home but a few days. Fifty cent bottles for sale by E. W. Wright, C. L. Gooch, J. L. Clark, O. Schenck, W. H. Heinrich, John Coleman, W. E. Williams, C. Menckmiller, W. C. Armbrust and S. L. Brice.

### Cheap Excursion to Cincinnati.

On account of the meeting of the Republican League of the United States, the Baltimore & Ohio Railroad Company will sell excursion tickets to Cincinnati, Ohio, and return, at a rate of one fare, per capita, for the round trip for parties of ten or more traveling together. Tickets will be sold for all trains arriving at Cincinnati from April 20th to 23d, 1891, inclusive, and will be good for return passage until April 24th, 1891, inclusive.

In addition to the above, the Baltimore & Ohio railroad will sell individual excursion tickets to Cincinnati at a rate of a fare and a third on the certificate plan.

Tickets will be sold April 18th, 19th, 20th, 21st and 22d, 1891, and will be good for return passage until April 25th, 1891, inclusive.

Ten Ship property, corner Main and Twelfth streets, is advertised at public sale May 2 instead of May 5.
